Aug	Spray 20 0 10 Liquid Biofeed, Humic, Sea Weed
Sep	Spread Croquet Lawn Spring/Autumn 6 10 14 3MgO BIOGRAN
Oct	Spray Liquid Winter Feed (Optional) Spray Soluble Iron to kill moss. (Optional) Spread Soil Conditioner. (Optional)
Nov	Spray Liquid Winter Feed (Optional)

Summer Programme (Apr to Sep)

1/. Croquet Lawn Spring/Autumn 6 10 14 + 3MgO BIOGRAN Granular Fertiliser

Quantities:

Half lawn 2 x 15kg of each fertiliser = 4 bags

Full size lawn 4 x 15kg of each fertiliser = 8 bags

Bowling Green 6 x 15kg of each fertiliser = 12 bags

2/. 20 0 10 Liquid Biofeed + Humates + Sea Weed.

Quantities:

Half lawn 4 x 5litres = 20 litres

Full size lawn 4 x 10 litres = 40 litres

Bowling Green 6 x 10 litres = 60 litres

Winter Programme (Sep to Mar)

20 0 10 +Trace Elements

Quantities:

Half lawn 4 x 1.25 litres = 5 litres

Full size lawn 4 x 2.5 litres = 10 litres

Bowling Green 4 x 3.75 litres = 15 litres

Optional:

Wetting Agent This has 3 months longevity and can be tank mixed with Liquid Biofeed

Apply in April and July using 2 litres per lawn. (1 litre for a half lawn and 3 litres for a Bowling Green)

Soil Conditioner Two treatments are usually necessary ie Spring and Autumn and can be applied using a fertiliser spreader with a wider port setting.

Half lawn - 15kg per treatment

Full size lawn - 30kg per treatment

Bowling Green - 45 kg per treatment

Soluble Iron 25kg Moss and Fungal Disease control

One bag is enough to treat a croquet lawn five times. Dilution; 5kg of crystals diluted in 50 litres of water covers one croquet lawn. For moss apply Spring and Autumn.

Affected areas can be sprayed using a knapsack sprayer or a fine rose watering can.

DELIVERY allow 10 to 14 days (can be more at busy times) by FedX or pallet

PAYMENT Goods are supplied on credit to registered Croquet Clubs and CA members. Payment is due within 14 days of delivery by cheque or bank transfer.
